

EUREKA'S Revolution in Squeegee Design

Double the versatility – Double the cleaning.

Eureka **QUAD PRO**

Eureka has evolved. In response to customer needs we have developed a new squeegee system that meets the requirements of a top quality, easy-to-use squeegee with our renowned Eureka value.

Eureka Quad Pro's advanced features will revolutionise the way you clean.

Features of the Eureka Quad Pro include:

- The Quad Pro blade is made from high quality, durable rubber with four usable edges to give double the blade life
- Eureka's unique quick release mechanism enables quick rubber changes and replaces the old style, difficult to use and slow-change metal clip system
- Specially designed swivel handle which is easily attached and can be moved along the channel by using the handle clip

EUREKA[™]
